

GREETING CARD ONE-SNIP STAR

You'll need:

1 Greeting Card

scissors

ruler

STEP 1

Tear your card in half. Use the designed part of the card to cut a rectangle measuring $4\frac{3}{4}$ " x $5\frac{1}{2}$ " (most cards have a $4\frac{3}{4}$ " depth or width).

STEP 2

Fold in half lengthwise (with designed part inside) to make a rectangle $4\frac{1}{2}$ " x $2\frac{1}{4}$ ". Keep folded in half through rest of instructions with fold at the top of your rectangle.

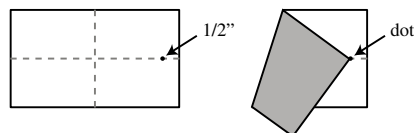

STEP 3

Gently crease in half lengthwise again and then fold in half crosswise. Open back to $4\frac{1}{2}$ " x $2\frac{1}{4}$ " rectangle.

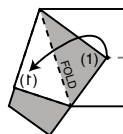

STEP 4

On your lengthwise crease, mark a dot 1 " from outside edge. Fold the top left-hand corner (corner 1) over to meet this dot making sure the top point of the fold is at the top of the crosswise fold. Keep folded.

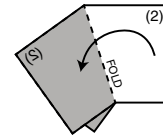

STEP 5

Fold Corner 1 back till edges line up, and then make fold.

STEP 6

Fold top right-hand corner (corner 2) left against the fold you made in Step 5. Fold.

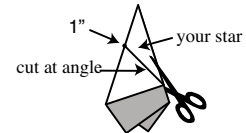

STEP 7

Bring Corner 2 right until edges line up. Fold.

STEP 8

Measure 1 " down from the top point along left-hand side of triangle. Mark the angle between this point and the bottom right-hand side of triangle as shown. Cut.

STEP 9

Unfold the small piece to see your star. For a neat 3-D look you can pinch up the folds in the middle of each of 5 points and pinch down the folds between the folds.

All through the holidays...all through the house.
